

Product Description: HPRM 291 / Class 100 / 360 discharge / CW Rotation / Arr 8 / 250F max design temperature

Application: induced draft fan for high pressure wet scrubber pollution control system.

Performance: 2300 ACFM @ 50" WGSP @ 0.062 Lb/ft³ inlet air density

Features: Hastelloy C276 impeller, rubber lined housing, split housing, double wall welded insulated housing, 40 HP Motor, 316 Stainless steel outlet silencer, inlet flex connector, vibration switch.
