

Product Description: IEAH 365 / Class 30 / 360 discharge / CW Rotation / Arr 1W / 150F max design temperature

Application: cooling fans for treating exhaust gases from electric turbine.

Performance: 16000 ACFM @ 25" WGSP @ 0.075 Lb/ft³ inlet air density

Features: 100 HP Motor with space heaters, removable sound insulation jacket, inlet VIV with pneumatic actuator and E/P positioner, outlet backdraft damper, inlet silencer, bolted access door, drain, flanged inlet and outlet, OSHA belt and shaft guards, shaft seal.
